INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
FOODLINK GLOBAL RESTAURANTS & CATERING SERVICES LLC

Opinion

We have audited the accompanying Standalone Ind AS Financial Statements of FOODLINK GLOBAL RESTAURANTS & CATERING SERVICES LLC ("the Company"), which comprise the Standalone Ind AS Balance Sheet as at March 31, 2025, Standalone Ind AS Statement of Profit and Loss including Other Comprehensive Income, Standalone Ind AS Statement of Changes in Equity, and Standalone Ind AS Statement of Cash Flows for the year then ended and notes to the Standalone Ind AS Financial Statements, including a summary of material accounting policy information.

In our opinion, and to the best of our information and according to the explanations given to us, the accompanying Standalone Ind AS Financial Statements of the Company for the year ended March 31, 2025 are prepared in all material respects, in accordance with note 2.1 of the Standalone Ind AS Financial Statements.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing ('SAs') specified under section 143(10) of the Companies Act, 2013 ("Act"). Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') ("Code of Ethics"), together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter

a) Basis of Accounting and Restriction on Distribution and Use

1. We draw attention to note 2.1 to the Standalone Ind AS Financial Statements, which describe the purpose and basis of its accounting. These Standalone Ind AS Financial Statements have been prepared by the management of the Company, solely for the purpose of the preparation of the Consolidated Financial Statements of the Parent Company for the year ended March 31, 2025. As a result, these Ind AS Financial Statements may not be suitable for another purpose.

2. Our report is intended solely for the purpose specified above. This should not be distributed to or used by any other parties. J C Kabra and Associates shall not be liable to the Company or to any other concerned for any claims, liabilities or expenses relating to this assignment. Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this report is shown or into whose hands it may come without our prior consent in writing.

Our Opinion is not modified in respect of the above matters.

Responsibilities of Management and Those charged with Governance for the Standalone Ind AS Financial Statements

The Board of Directors is responsible for the preparation of the Standalone Ind AS Financial Statements in accordance with note 2.1 on basis of accounting; and this includes design, implementation and maintenance of such internal control relevant to the preparation of the Standalone Ind AS Financial Statements that are free from material misstatements, whether due to fraud or error.

In preparing the Standalone Ind AS Financial Statements, Board of Directors of the Company is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless Board of Directors either intends to liquidate the Company or to cease operations or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Ind AS Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone Ind AS financial statements.

We give in "Annexure" a detailed description of Auditor's responsibilities for Audit of the Standalone Ind AS Financial Statements.

Other Matter

The above Standalone Ind AS Financial Statements have been prepared for the purpose of preparation of Consolidated Financial Statements of the Parent Company.

The above Standalone Ind AS Financial Statements have been prepared by making Ind AS adjustments to the audited IFRS financial statements of the Company as at and for the year ended March 31, 2025 prepared in accordance with IFRS (the "IFRS Financial Statements") which was audited by another auditor who has given unmodified opinion on IFRS financial statement vide their report dated **26 September 2025.**

The standalone financial statements are not the statutory financial statements of the Company and accordingly the presentation and disclosures to the extent applicable for that purpose have been included in these special purpose financial statements by the management.

As a result, these Accounts are not a complete set of financial statements in accordance with the accounting principles generally accepted in India and should not be distributed to anyone other than the intended purpose.

These Standalone Ind AS Financial Statements do not reflect the effects of events that occurred subsequent to the date of auditor's report on the Audited IFRS Financial Statements for the year ended March 31, 2025.

ANNEXURE TO THE INDEPENDENT AUDITOR'S REPORT ON EVEN DATE ON THE STANDALONE IND AS FINANCIAL STATEMENTS OF FOODLINK GLOBAL RESTAURANTS & CATERING SERVICES LLC

Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Ind AS Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for expressing our opinion on whether the Company has internal financial controls with reference to Financial Statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management of the Company.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

Contribution from Parent Company

Represents Employee Stock Option Plan (ESOP) cost borne by the Parent Company on behalf of the Subsidiary, recorded as equity contribution. This amount is classified under reserves as 'Contribution from Parent Company'.

Retained Earnings

The cumulative gain or loss arising from the operations which is retained by the Company is recognized and accumulated under the heading of retained earnings. At the end of the year, the profit/(loss) for the year including other comprehensive income is transferred from the Statement of Profit and Loss to the retained earnings.

General Reserve

The Company has transferred a portion of the net profit of the Company to general reserve.

Foreign exchange translation reserve

Exchange differences arising on translation of the foreign operations are recognised in other comprehensive income and are accumulated in foreign currency translation reserves. The cumulative amount is reclassified to profit or loss when the foreign operations are disposed-off.

2 Summary of material accounting policies

2.1 Statement of compliance and basis of preparation

(i) Statement of compliance

The Financial Statements of the Company comprises the Balance Sheet as at 31 March 2025 , the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity, the Statement of Cash Flows and Notes forming part of the Financial Statements for the year ended 31 March 2025, and summary of material accounting policies and explanatory notes (collectively referred as, the ' Financial Statements') that have been prepared by the management of the Company for the purpose of preparation of the Consolidated Financial Information.

The Financial Statements of the Company comprises the Balance Sheet as at 31 March 2025 and 31 March 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity, the Statement of Cash Flows and Notes forming part of the Financial Statements for the year ended 31 March 2025 and 31 March 2024, and summary of material accounting policies and explanatory notes (collectively referred as, the ' Financial Statements') that have been prepared by the management of the Company for the purpose of preparation of the Consolidated Financial Information.

These Financial Statements of the Company as at and for the year ended 31 March 2025 were approved by the Board of Directors at their meeting held on 26th September 2025.

2.2 Basis of measurement

The Financial Statements have been prepared on a historical cost convention and on an accrual basis

2.3 Use of estimates and judgments

The preparation of the Financial Statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. In particular, information about significant areas of estimation, uncertainty and critical judgmentsin applying accounting policies that have the most significant effect on the amount recognized in the Restated Consolidated Financial Information is included in the following notes:

i) Leases

The Company determines the lease term as the non-cancellable period of a lease including any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it isreasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to operations, taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances. The Company has applied an incremental borrowing rate for the purpose of computing lease liabilities based on the rate prevailing in respective geographies.

ii) Property and equipment

The Company depreciates property and equipment on a straight-line basis over the estimated useful lives of assets. The anticipation of future events may impact the useful lives of assets. The estimated useful lives of assets are reviewed at least annually.

2.4 UAE Corporate Tax Law

On 9 December 2022, the U.A.E. Ministry of Finance released Federal Decree-Law No. 47 of 2022 on the Taxation of Corporations and Businesses (the "Law") to enact a Federal corporate tax regime in the U.A.E. Furthermore, on 16 January 2023, a Cabinet Decision was published specifying the threshold of AED 375,000 of taxable income above which taxable entities would be subject to a 9% corporate tax rate.

The Corporate Tax regime will become effective for the accounting periods beginning on or after 1 June 2023 hence for the Entity it will be effective from 1 January 2024. While a number of regulations with regards to the application of tax legislation have been further published, clarifications in relation to certain key aspects such as foreign tax credits are pending and as such management will continue to monitor developments in order to assess the impact of corporate tax including any deferred tax on the Entity.

2.5 Functional and presentation currency

These Financial Information are presented in Indian Rupees (INR), which is also the functional currency. All amounts have been rounded to the nearest millions, unless otherwise indicated.

2.6 Revenue Recognition

The Company derives revenue from catering services, comprising sale of food & beverage and banquet renting and operating casual dining restaurant chain, comprising sale of food & beverage and liquor & wine.

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those services. Revenue is net of taxes or duties collected on behalf of the government.

Revenue earned from catering services

Revenue is recognized as the related catering services are provided in accordance with the client contract. (i.e. upon completion of catering event). The payment against the invoice for catering services is due immediately upon completion of services.

Revenue earned from operating casual dining restaurant chain

Revenue from sale of food & beverage/ liquor & wine is recognized at the time of underlying sale to the customer (i.e. as the order is served to the customer). Revenue is recognized net of discounts. The payment against the invoice is due immediately upon serving the order.

Amounts billed or payments received, where revenue recognition criteria have not been met, are recorded as deferred revenue and classified as contract liabilities. These are recognized as revenue when all the recognition criteria have been met.

In case of online orders, the Company pays commission to online food aggregators. The Company has determined that such commission represents incremental cost to obtain the contract as it is payable upon generating the order. The Company recognizes such commission as an expenses in the Restated Consolidated Statement of Profit and Loss.

2.7 Other Income

Interest income is accrued on a time basis by reference to the principal outstanding.
Other items of income are accounted as and when the right to receive such income arises and it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably.

2.8 Inventories

Stock of food and beverages are initially recognized at cost, and subsequently at the lower of cost (computed on a First in First out basis) or net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and selling expenses. Cost includes the fair value of consideration paid including duties and taxes (other than those refundable), inward freight, and other expenditure directly attributable to the purchase.Trade discounts and rebates are deducted in determining the cost of purchase.

2.9 Property, Plant & Equipment

(a) Property, plant and equipment are stated at cost, less accumulated depreciation and accumulated impairment losses, if any. All property, plant and equipment are initially recorded at cost. Cost directly attributable to acquisition are capitalised until the property, plant and equipment are ready to use as intended by management. All other repair and maintenance costs are recognised in profit or loss as incurred.

First time issues of operating supplies for a new restaurant, consisting of linen and chinaware, glassware and silverware (CGS) are capitalised and depreciated over their estimated useful life. Subsequent expenditure relating to property, plant and equipment is capitalised only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably.

(b) Depreciation:

A depreciable amount for assets is the cost of an asset or other amount substituted for cost less its estimated residual value. Depreciation on PPE is provided based on useful life of the assets as estimated by the management on Straight Line Method. The useful lives used are in agreement with those specified in Part 'C' of Schedule II to the Companies Act, 2013 except in respect of following category of property, plant and equipment where the useful life is considered differently based on technical evaluation, taking into account the nature of the asset and the estimated usage basis management's best judgement of economic benefits from those classes of assets.

Assets	Useful economic life (in Years)
Office Equipment's	5 or 8 years
Furniture & Fixtures	8 years
Computer	3 years
Vehicles	8 or 10 years
Plant & Machinery	5 to 15 years
Kitchen Equipment	5 to 15 years
Air-conditioners	5 years
Crockery, Cutlery & Utensils	4 years

Leasehold improvements are depreciated over the lease term or useful lives of the underlying asset, whichever is shorter.
The company, based on technical assessment made by technical expert and management estimate, depreciates certain items of plant & machinery and electrical equipment's which is different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

2.10 Leases

The Company as a lessee

The Company leases most of its restaurants, office and warehouse facilities that are renewable on a periodic basis at the option of the lessor and the lessee. The lease agreements contain rent escalation and termination clauses.

The Company assesses whether a contract contains a lease at the inception of the contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset, (ii) the company has the right to obtain substantially all of the economic benefits from the use of the asset through the period of the lease, and (iii) the company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognises a ROU asset and a corresponding lease liability for all lease arrangements under which it is a lessee, except for short-term leases and low value leases. ROU assets represent the Company's right to use an underlying asset for the lease term and lease liabilities represent the Company's obligation to make lease payments arising from the lease. The Company has elected not to apply the requirements of Ind AS 116 Leases to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight line basis over the lease term.

The lease arrangements include options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities include these options when it is reasonably certain that they will be exercised.

The ROU assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

ROU assets are depreciated from the date of commencement of the lease on a straight-line basis over the shorter of the lease term and the useful life of the underlying asset.

The lease liability is initially measured at amortised at the present value of the future lease payments. The Company uses its incremental borrowing rate (as the interest rate implicit in the lease is not readily determinable) based on the information available at the date of commencement of the lease in determining the present value of lease payments. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made. Lease liabilities are remeasured with a corresponding adjustment to the related ROU asset if the Company changes its assessment as to whether it will exercise an extension or a termination option.

2.11 Intangible Assets

Intangible assets acquired separately are initially recognized at cost, and subsequently amortized on a straight-line basis over their useful economic lives. The useful lives of intangible assets are assessed as either finite or indefinite. Following, initial recognition, intangible assets with finite lives are carried at cost less accumulated amortisation and accumulated impairment losses, if any.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired.The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period and changes if any, made on prospective basis. The amortisation expense on intangible assets with finite lives is recognised in the Statement of Profit and Loss.

An intangible asset is derecognised upon disposal or no future economic benefits are expected from its use or disposal. Any gain or loss arising upon derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit and Loss when the asset is derecognised.

Assets	Estimated Useful life
Computer Software	3 years
Trademark	3 years

2.12 Financial Instruments

(a) Financial Assets

(i) Classification

The Company classifies its financial assets in the following measurement categories:
- those to be measured subsequently at fair value through profit and loss, and
- those measured at amortised cost

The classification depends on the entity's business model for managing the financial assets and the contractual cash flow characteristics.

(ii) Initial recognition

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Trade receivables are measured at transaction price.

(iii) Measurement

Subsequent to initial recognition, financial assets are measured as described below:

Cash and cash equivalents:

The Company's cash and cash equivalents consist of cash on hand and in banks and demand deposits with banks (three months or less from the date of acquisition). For the purposes of the cash flow statement, cash and cash equivalents include cash on hand, in banks and demand deposits with banks (three months or less from the date of acquisition), net of outstanding bank overdrafts that are repayable on demand and are considered part of the Company's cash management system. In the balance sheet, bank overdrafts are presented under borrowings within current liabilities.

Financial assets carried at amortised cost:

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income (FVOCI):

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Further, in cases where the Group has made an irrevocable election based on its business model, for its investments which are classified as equity instruments, the subsequent changes in fair value are recognized in other comprehensive income.

Financial assets at fair value through profit or loss (FVTPL)

A financial asset which does not meet the amortized cost or FVTOCI criteria is measured as FVTPL. Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses on re-measurement recognized in statement of profit or loss. The gain or loss on disposal and interest income earned on FVTPL is recognized.

(iv) Impairment of financial assets

The Company assesses at each date of balance sheet whether a financial asset or a Company of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance.

In determining the allowances for doubtful trade receivables, the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and rates used in the provision matrix. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For all other financial assets, expected credit losses are measured at an amount equal to the 12-month expected credit losses on a forward looking basis. However, if the credit risk on the financial instruments has increased significantly since the initial recognition, then the Company measures lifetime ECL.

(v) Derecognition of financial assets

The Company derecognises a financial asset when

- the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under IND AS 109.

- the Company retains contractual rights to receive the cash flows of the financial asset but assumes a contractual obligation to pay the cash flows to one or more recipients.

When the entity has neither transferred a financial asset nor retained substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to extent of continuing involvement in the financial asset.

(b) Financial liabilities:

(i) Initial recognition and measurement

Financial liabilities are classified as financial liabilities at amortised cost. All financial liabilities are recognized initially at fair value, except in the case of borrowings which are recognised at fair value, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, bank overdrafts, borrowings and lease liabilities.

(ii) Subsequent measurement

After initial recognition, interest bearing borrowings are subsequently measured at amortised cost using the effective interest rate method.

(iii) Derecognition

Financial liabilities are derecognised when the contractual obligations are discharged, cancelled or expired. The Company also derecognises financial liabilities when their terms are modified and the cash flows of the modified liabilities are substantially different, in which case new financial liabilities based on the modified terms are recognized at fair value.

(c) Offsetting financial instruments

Financial assets and liabilities are offset, and the net amount is reported in the Balance Sheet where there is a legally enforceable right to offset the recognised amounts, and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

2.13 Foreign Currency Transactions

The functional currency of the Company is the Indian Rupee. The treatment of foreign currency transactions are as under:

Initial recognition

Transactions in foreign currencies entered into by the Company are accounted at the exchange rates prevailing on the date of the transaction or using rates that closely approximate the rate at the date of the transaction.

Measurement at the balance sheet date

Foreign currency monetary items of the Company, outstanding at the Balance Sheet date are translated at the rates prevailing on the reporting date.

Treatment of exchange differences

Exchange differences arising on transactions / translation of foreign currency monetary assets and liabilities of the Company are recognised as income or expense in the Statement of Profit and Loss.

2.14 Impairment of non-financial assets

The Company assesses at each year end whether there is any objective evidence that a non financial asset or a group of non financial assets is impaired. If any such indication exists, the Company estimates the asset's recoverable amount and the amount of impairment loss.

An impairment loss is calculated as the difference between an asset's carrying amount and recoverable amount. Losses are recognized in Statement of Profit and Loss and reflected in an allowance account. When the Company considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, then the previously recognised impairment loss is reversed through Statement of Profit and Loss.

The recoverable amount of an asset or cash-generating unit (as defined below) is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash in flows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

2.15 Employee benefits

(a) Short-term obligations

Liabilities for salaries, wages and bonus, that are expected to be settled wholly within 12 months after the end of the year in which the employees render the related service are recognised in respect of employees services up to the end of the reporting year and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(b) Compensated absences

The Company provides for the encashment of leave or leave with pay subject to certain rules. The employees are entitled to accumulate leave subject to maximum of 60 days, for future encashment. The liability is provided based on number of days of unutilized leave at each balance sheet date based on an estimated basis for the period end and on an independent actuarial valuation under Projected Unit Cost method at the year end.

(c) Gratuity Expense

Retirement benefits in the form of gratuity is determined for employees who have completed more than 1 year of service and calculated as per below formula.

For Service below 1 year- Nil
For Service 1-5 year -21 days
For Service Above 5 year -30 days

2.16 Provisions and contigent liabilities

Provisions are recognized when there is a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance sheet date.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

Contingent liabilities are disclosed in the financial statements as notes to accounts, unless possibility of an outflow of resources embodying economic benefit is remote.

2.17 Earnings Per Share

Basic earnings per share is calculated by dividing the net profit or loss attributable to equity shareholder's of the Company by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders of the Company and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

3 Recent accounting pronouncements:

(a) Amendments to Ind AS 117, Insurance Contracts

The Ministry of corporate Affairs ("MCA") notified the Ind AS 117, Insurance Contracts, under the Companies (Indian Accounting Standards Amendment Rules, 2024, which is effective from annual reporting periods beginning on or after 1 April 2024.

Ind AS 117 Insurance Contracts is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Ind AS 117 replaces Ind AS 104 Insurance Contracts. Ind AS 117 applies to all types of insurance contracts, regardless of the type of entities that issue them as well as to certain guarantees and financial instruments with discretionary participation features; a few scope exceptions will apply.

The application of Ind AS 117 had no impact on the financial statements as the Compaany has not entered any contracts in the nature of insurance contracts covered under Ind AS 117.

(b) Amendments to Ind AS 116, Leases

The MCA notified the Companies (Indian Accounting Standards) Second Amendment Rules, 2024, which amended Ind AS 116, Leases , with respect to lease liability in a sale and leaseback transaction.
The amendment specifies the requirements that a seller-lessee uses in measuring the lease liability arising in a sale and leaseback transaction, to ensure the seller-lessee does not recognise any amount of the gain or loss that relates to the right of use it retains. The amendment is effective for annual reporting periods beginning on or after 1 April 2024 and must be applied retrospectively to sale and leaseback transactions entered into after the date of initial application of Ind AS 116.

These amendments do not have any material impact on the amount recognised in these financial statements.

29 Earnings/ Loss per share

Basic earnings /(loss) per share amounts are calculated by dividing the profit/loss for the year attributable to equity holders by the weighted average number of equity shares outstanding during the year.

Diluted earnings /(loss) per share amounts are calculated by dividing the profit/loss attributable to equity holders (after adjusting for interest on the convertible preference shares) by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity

The following reflects the income and share data used in the basic and diluted EPS computations:

	31 March 2025	31 March 2024
Profit attributable to equity holders	125.26	40.02
Less: preference dividend after-tax	-	-
Profit attributable to equity holders after preference dividend for basic EPS	125.26	40.02
Add: Interest on convertible bonds	-	-
Profit attributable to equity holders adjusted for the effect of dilution	125.26	40.02
Weighted average number of equity shares for basic EPS*	300	300
Effect of dilution:		
Share options	-	-
Convertible bonds	-	-
Weighted average number of equity shares adjusted for the effect of dilution	300	300

* The weighted average number of shares takes into account the weighted average effect of changes in treasury share transactions during the year.

29.01 **EPS**

Basic Earning/ (loss) per share (INR)	4,17,533	1,33,406
Diluted Earning/ (loss) per share (INR)	4,17,533	1,33,406

30 Lease Liabilities

The Company has entered into lease contracts for office premises with lease period of 10 years, with escalation clauses in the lease agreements. The Company also has certain leases with lease term up to 12 months. The Company applies the recognition exemptions relating to short-term leases for those leases.

30.01 Break-up of current and non-current lease liabilities

32 **Segment reporting**

The Company's business activity, as reviewed by the Company's management, falls within a single operating segment i.e. hospitality and related services. Accordingly, no further disclosures, other than those already included in these standalone financial statements, are required. Also, the Company operates from one principle geographical area i.e. Dubai and accordingly disclosure of information about geographical areas is not required.

33 Fair Value Measurement

A Financial instruments by category

The carrying value of financial instruments by class are as follows:

	31-Mar-2025	31-Mar -2024
Financial assets measured at amortised cost	Carrying amount	
Investments	13.39	-
Trade receivables	119.97	31.45
Cash and cash equivalents	48.21	54.11
Other financial assets	20.84	2.63
Total Financial Assets	**202.40**	**88.19**
Financial liabilities measured at amortised cost		
Borrowings	228.72	202.40
Lease Liabilities	284.34	212.97
Trade payables	69.99	121.22
Other financial liabilities	0.15	2.78
Total financial liabilities	**583.19**	**539.37**

B Fair value hierarchy

The following is the hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Other techniques for which all inputs that have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: Techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

As per Ind AS 107 "Financial Instrument: Disclosure", fair value disclosures are not required when the carrying amounts reasonably approximate the fair value. Accordingly fair value disclosures have not been given for the following financial instruments:-

1 Trade Receivables
2 Cash and Cash Equivalents
3 Other Bank Balances
4 Loans
5 Other Financials Assets
6 Borrowings
7 Lease Liabilities
8 Trade Payables
9 Other Financial Liabilities

34 Financial risk management

Financial risk factors

The Company's activities expose it to a variety of financial risks: market risk, interest rate risk, credit risk and liquidity risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of riskfrom the top few customers.

The Company's principal financial liabilities comprise borrowings, leases, trade payables, and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans, trade receivables, bank deposits and security deposits.

Components of market risk

Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity risk is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under normal and stressed conditions, without incurring unacceptable losses or risking damage to its reputation. Typically, the Company ensures that it has sufficient cash on demand to meet expected operational expenses and service financial obligations.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments:

As at 31 March 2025						
Particulars	**On demand**	**Upto 1 year**	**1 to 5 years**	**More than 5 years**	**Total**	**Carring Value**
Borrowings (Refer note 16 & 18)	130.55	25.07	73.10	-	228.72	228.72
Lease liabilities (Refer note 30)		37.95	197.71	141.49	377.14	284.34
Trade payables (Refer note 18)		69.99			69.99	69.99

Interest Rate Risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates.

The Company manages its interest rate risk exposure by having a balanced portfolio of fixed and variable rate borrowings. These exposures are reviewed by appropriate levels of management on a periodic basis.

The Company manages its interest rate risk by having a balanced portfolio of fixed rate of borrowings.

Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. Credit risk arises principally from the Company's trade receivables, security deposits, bank balances and other financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Company assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors.

The Company limits its exposure to credit risk of cash held with banks by dealing with highly rated banks and institutions. The Company does a proper financial and credibility check on the landlords before taking any property on lease and hasn't had a single instance of non-refund of security deposit on vacating the leased property. The Company does not foresee any credit risks on deposits with regulatory authorities.

Trade receivables: The Company has adopted a policy of dealing with only credit worthy counterparties in case of Catering business and the credit risk exposure for them is managed by the Company by credit worthiness checks. In case of restaurant business, the collection occurs as soon as the Company fulfills the order.The Company has also partened with renowed online food aggregators for delivering their orders and in this case, the food aggregators periodically remit the consideration collected from end customers to the Company. The maximum exposure to credit risk at the reporting date is primarily from trade receivables which amounted to INR 119.97m and INR 31.45m as at 31 March 2025 and 31 March 2024 respectively.

Foreign currency risk

The Company's exposure to exchange rate risk arises mainly due to Trade Payables and Loan from Parent Company which is denominated in INR. The foreign currency exposure (i.e. INR equivalent of AED) from the financial instruments are as follows:

Particulars	As at 31 March 2025	As at 31 March 2024
Trade Payables	27.52	23.67
Loans from Parent Company	130.55	140.11
Total	**158.07**	**163.78**

The following table demonstrates the sensitivity to appreciation or depreciation in AED against INR. If foreign currency rate had been 5% higher/lower and all other variables were held constant, the Company's profit/ (loss) for the year ended would have impacted in the following manner:

Particulars	Appreciation in AED by 5%	Depreciation in AED by 5%
Impact on Profit / (Loss) before tax for the year ended 31 March 2025	7.90	(7.90)
Impact on Profit / (Loss) before tax for the year ended 31 March 2024	8.19	(8.19)

35 Capital risk management

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital as well as the level of dividends to ordinary shareholders.

The Company monitors capital using a ratio of 'adjusted net debt' to 'total equity'. For this purpose, adjusted net debt is defined as total debt, comprising interest-bearing loans and borrowings, less cash and cash equivalents. Total equity comprises all components of equity.

The Company's adjusted net debt to equity ratio is as follows:

Particulars	As at 31 March 2025	As at 31 March 2024
Total debt (including lease liabilities)	513.06	415.37
Less : Cash and cash equivalent	48.21	54.11
Net debt (A)	464.85	361.26
Total equity (B)	233.89	97.30
Net debt to equity ratio (A/B)	**1.99**	**3.71**
